

CAREER TECHNOLOGY SCHOLARSHIP

An educated workforce is essential to the economic development and growth of our nation. The Nikanihk Ohci Foundation, Inc. is committed to improving educational opportunities for young people as well as investing in the future of the technology and vocational industry.

The Career Technology Scholarship is open to students pursuing a career in technology and vocational related fields. The scholarship program offers support for students who are attending or planning to attend a university or college program for the upcoming school year.

THE CAREER TECHNOLOGY SCHOLARSHIP is established as follows:

- The scholarship will be awarded annually to a Frontier School Division student graduating from Grade 12 who is attending a recognized University or Community College.
- The successful applicant will be chosen from those Grade 12 students who submit a short essay of 500 words outlining their future career aspirations in the technology or vocational field. The essays will be reviewed by the Board of Directors of N.O.F.I. If in any given year the essays submitted are not of acceptable quality, the scholarship will not be issued for that year.
- The successful applicant will receive the scholarship at the beginning of his/her second month of post-secondary study upon submission of proof of registration and attendance to the Directors.
- Applicants may be evaluated on their academic performance, community involvement, extracurricular activities and leadership qualities.
- The amount of the scholarship is \$250.00.

Typewritten essays with a covering letter must be received by May 30. Send entries to:
