

The Board of Trustees believes that Frontier School Division students should be successful in whatever they choose to do. In order to be successful, appropriate programming must be provided. These programs must reflect the needs and aspirations of the students and the community. For students within the compulsory school age, the Division shall provide instructional programs designed to offer full educational opportunities for all students in accordance with their individual capabilities and needs.

To serve the special needs of students or groups of students within compulsory ages, the Board of Trustees shall ensure that every possible provision is made in the most enabling and appropriate environment to respond to these needs.
