

The Board of Trustees is committed to a school system where individuals learn and work in a positive and safe environment. Division facilities shall be safe and healthy places to work and learn. Providing this environment is a responsibility shared by all staff and students who are expected to work together to ensure all activities are safe and healthy.

Frontier School Division shall establish and implement a Workplace Safety and Health Program that meets all the requirements of *The Workplace Health and Safety Act* and accompanying regulations.

**Frontier School Division Workplace Safety and Health Program**

**1. Objectives**

The objectives of the Frontier School Division Workplace Safety and Health Program are:

- a. to assist workers and Frontier School Division to identify, record, examine, evaluate and resolve safety and health concerns in the workplace,
- b. to develop practical procedures and conditions to encourage a high degree of safety and health in the workplace,
- c. to promote and provide education and training programs to develop knowledge of safety and health concerns and to make individuals aware of the roles they have in maintaining a safe work environment.

Additional information is available in the Frontier School Division Workplace Safety and Health Program handbook. All schools and offices must review the handbook and this policy at the beginning of each school year.
