

Construction in Frontier School Division consists of provincially funded, federally funded and jointly (federal and provincial) funded projects. Generally, Frontier School Division manages provincially funded projects and the Department of Indian and Northern Affairs Canada manages federally funded projects. Occasionally, where circumstances require, the Division will act as its own contractor.

To ensure that facilities are properly built, maintained and equipped, all construction projects will follow the appropriate provincial or federal requirements and Division policies and regulations.

Information: Public Schools Finance Board (PSFB) Capital Support Program Guidelines

Adopted September 1, 2009
