

National Indigenous Languages Day March 31, 2024

Why celebrate Indigenous Languages?

Embedded within Indigenous languages are thousands of years of knowledge, including ecological, medicinal and environmental knowledge specific to the lands we live on. Western science and medicine has only recently begun acknowledge the value and seek out this knowledge.

See <https://pimaki.ca/category/cultural-heritage/language/> to learn how knowledge is embedded in the Ojibwe language (Anishinaabemowin).
